

# YONIVYAPAD

BY

DR. UMESH R. LUNAWAT

M.S.(PTSR), Ph.D.(Sch.), LL.B.

# INTRODUCTION

- ◉ *Yoni* - Whole genital organs (external + Internal)
- ◉ *Vyapad* - Disorders / Abnormalities
- ◉ Covers gynecological disorder
- ◉ Covers both anatomical & functional disorders of female genital tract
- ◉ **Number - 20**
- ◉ **Main Responsible *Dosha* - *Vata***
- ◉ *Yoni arsh* - charak, sushrut, vagbhat, harit
- ◉ *Yoni kand* - madhavnidan, sharangdhar, yogratnakar, bhavprakash

# SUSHRUT

# Etiological factors (*Hetu*)

- ◉ वातज व्याधी Vitiated *Vata Dosh*a
- ◉ मिथ्याचार ( Unsuitable diet and behavior)
- ◉ दुष्टभोजन (Contaminated diet)
- ◉ प्रदुष्ट आर्तव (abnormalities of ovum)
- ◉ बीजदोष (abnormalities of sperm/ovum) (chromosomal abnormality)
- ◉ दैव (Act of god / congenital / idiopathic)
- ◉ मैथुन स्थिति - विषम शयन (coitus in abnormal position)
- ◉ अतिमैथुन (excessive intercourse)
- ◉ अपद्रव्य प्रयोग (use of objects made of metal for sexual pleasure)

- ◉ Weak woman, Very young girl does excessive coitus with man having big penis
- ◉ शुद्धस्नाता स्त्री ला नस्य - योनिशोष  
(*Nasya* given to woman just after her menstrual period - *Yonishosh*)

# Complications of yonivyapd

- ◉ Does not retain sperms (न शुक्रं धारयति)
- ◉ She will not conceive (गर्भं न गृह्णाति)
- ◉ She will not able to complete her pregnancy
- ◉ *Gulma*
- ◉ *Arsha*
- ◉ *Raktapradar*
- ◉ Other disorder of *Vata dosha*

# Sadhya-asadhyatva

Asadhya :- Tridoshaj Yonirog (Sushrut)

Sadhya :- other all yoni rog

Tridoshaj Yonivyapd :

Shandhi

Suchi mukhi

- *chandan jal yoni pichu*

vii) *Yoni dah* (Burning sensation)

- *dhatiri ras + sita - abhyantar pan*

- *chandan jal yoni pichu*

- *Suryakanta mul + Tandulambu*

# DOSHA NUSAR CHIKITSA

- ◉ Vataj Yonivyapad :- Vataghna Snehan, swedan, basti, Amla dravya mishrit tail uttarbasti etc
- ◉ Pittaj Yonivyapad :- Rakta-Pitta nashak sheet upachar, Madhru dravya siddha kshir uttarbasti
- ◉ Kaphaj Yonivyapad:- Ruksha , Ushna chikitsa, Katu dravya yukta gomutra uttarbasti
- ◉ Dvidoshaj Yoniyapad:- According to Dosh
- ◉ Tridoshaj Yonivyapad:- Triodhaghna chikitsa

# Common surgical principles

“स्निग्धास्विन्नां तथा योनिं दुस्थितां स्थापयेत्पुनः।  
पाणिना नामयेज्जिहमां संवृतां वर्धयेत् पुनः।  
प्रवेशयेत् निःसृतां च विवृतां परिवर्तयेद्॥  
योनिः स्थानापवृत्ता हि शल्यभृता मता स्त्रियः॥”

.. च.चि.३०

Before procedure - *Snehan* , *Swedan*

Crooked, tortuous, bent *yoni* - Straightened by bending it downwards or upwards

Narrow os - Dilatation of Os

Downward displacement / prolapse - Reposition of uterus

Incompetent Os - constriction from all around

Displaced yoni is as a *Shalya* (Foreign body)

Treatment of *Shalya*- *Shalyaapaharan* ( Removal Of FB)

○ **PATHYA:**

- *Lashun Swaras*
- *Yavaanna bhojan*
- *Kshir, Mansaras yukt Bhojan*
- *Sura, aasav, arisht (as per dosh awastha)*
- *Sidhu*
- *abhayarisht*
- *pippli churn + loha bhasm + madhu*
- *Bala tail, mishrak sneha, sukumar sneha*

○ **Apathya**

- *Manda prayog (kashyap. Kalpasthan 7)*

# Commonly used medications

## A) Internal Medicines:

a) Churn - Pushyanug Churn

b) Ghrut - Bhruhat Shatavari Ghrut

- Falghrut

- laghu falghrut

- triphaladi ghrut

c) Kwath - Nyagrodhadi kwath

- Maharasnadi kwath

d) Modak - Jeerakadi Modak

## B) Local / External medications:

- a) Pichu- Mushak siddha pichu  
Bala tail pichu
- b) Basti- Palash niruh basti  
Shatavaryadi anuvasan basti  
Guduchyadi rasayanik basti  
Baladi yamak anuvasan basti  
Shatavaryadi rasayan basti
- c) Uttarbasti - Kshar tail  
kasisdi tail

# Vatala Yonivyapad

◉ Hetu :- *Vata prakopak* diet and behavior

◉ Samprapti:

- Vitiated Vata dosha affects *Yoni*

◉ Symptoms:

Local symptoms :-

- Pricking pain योनि तोद/वेदना, Stiffness स्तम्भ
- sensation as if creeping of ants पिपिलिका परिसर्पन्
- Roughness (रुक्षता) , Numbness(सुप्ति), dryness कर्कशता
- vaginal flatus

## Related to Menses :-

- menstruation appears with sound स्वन्
- painful menstruation
- frothy, thin, dry, scanty, blackish and pinkish menstruation
- फ़ेनिल, तनु, रुक्ष, अल्प, आर्तव स्त्राव , अरुण, कृष्णवर्ण स्त्राव
- inter-menstrual bleed mentioned by *Chakrapani*

## ○ Other / Systemic symptoms:

- pain in groin, flanks वंक्षण, पार्श्व शुल
- other disorders of *Vata* अन्य वातव्याधी
- displacement of *yoni* योनि भ्रंश, संस
- *gulma*

- Symptoms of *Vatala Yonivyapad* related to :
  - Estrogen deficiency - Roughnes, dryness, pale discharge, scanty flow
  - lax perineum
  - Endometriosis

# Udavarta:

○ UDAVARTA = UDAVARTINI = UDAVRUTTA

Adho vatadi veg vidharan

Vitiated vata moves upward and fills yoni

All around movements of Vata dosha (Madhav Nidan)

Vitiated vata throws raja upwards

Udavartini

- Symptoms :-
  - Painful menstruation
  - Pain relieves with onset of menstruation
  - Frothy menstruation
  
- Correlate with
  - All types of Dysmenorrheal  
( Spasmodic, Membranous Dysmenorrhoea)

# Vandhya

“ वन्ध्या नष्टार्तवां विद्यात्..... ।” .. सु.उ.३८

- Vitiated Vata dosha leads to destruction of *Artava*.

“ वन्ध्या निरार्तवा ज्ञेया ... ।” .. भा.प्र.

- absence of *Artav*

*Dalhan* differentiated *Vandhya* from *Shandhi*

*Vandhya* - Development of breast present

*Shandi* - Non development of breast (absence)

## Correlate with :

Vandhya - Absence / Destruction of Artav  
- DD - Shandhi

Shandhi - Anartava, Astani, khar sparsha ch maithune  
- beej dosha (congenital anomaly)

Charak - beej dushti - Garbhashay & artav absence -  
Vandhya

Vandhya yonivyapad = Primary Amenorrhoea  
(due to absence/abnormality of Uterus/Ovary)

# Vipluta

विप्लुता ---सुश्रुत & वाग्भट--- Different symptoms

◉ सुश्रुतोक्त विप्लुता

.... विप्लुतां नित्यवेदनाम् । ..... सु.उ.३८

Vitiated Vata ---- Constant pain in Yoni

- Vaginal Neuralgia

- Presacral neuralgia specially of psychogenic origin

○ वाग्भटकोक्त विप्लुताः

.... विप्लुताख्यात् अधावनात् ।

सञ्जातजन्तुः कण्डूला कण्ड्वा च अतिरतिप्रिया ॥

.... अ.सं.उ.३८/५०

○ Hetu - Unhygienic condition of Vagina

○ - Results in formation of *Krumi* (Microbes, parasites)

○ Symptoms - Vaginal Itching

- Excessive sexual desire

Correlate With = Nymphomania ( Mental disorder marked by compulsive sexual behavior)

# Acharana

योन्यां अधावनात् कण्डूं जाताः कुर्वन्ति जन्तवः ।

सा स्याद् अचरणा कण्ड्वा तथाऽतिनरकांक्षिणी ॥ ...

च.चि.३०

मैथुनेऽचरणा पूर्वं पुरुषाद् अतिरिच्यते ॥ ... सु.उ.३८

Described by = *Charak* , *Shushrut*, *Bhavprakash*,  
*Madhav Nidan*

*Bhavprakash* = *Anandcharana*

Similar description as of *Vipluta* (*Vagbhat*)

# Paripluta

“परिप्लुतायां भवति ग्राम्यधर्मे रुजाभृशम् ।  
चतसृष्वपि चाद्यासु भवन्ति अनिलवेदनाः ॥”.... सु.उ.३८

“पित्तलाया नृसंवासे क्षवथु उद्गार धारणात् ।  
पित्तसंमूर्च्छितो वायुः योनिं दूषयति स्त्रियाः ॥  
शूना स्पर्शाक्षमा सार्तिनीलपीतम् असृक् स्रवेत् ।  
श्रोणिवंक्षणपृष्ठार्ति ज्वरार्तायाः परिप्लुता ॥” .. च.चि.३०

# Paripluta

- ◉ *Sushrut* = *Vataj Yonivyapad*
- ◉ *Charak* = *Vata + Pittaj yonivyapad*

## Hetu-

- *Pitta* Predominance female withholds her natural urge of sneezing & eructation at time of coitus

## *Samprapti* -

- Vitiated *Pitta* along with *Vayu* reaches *yoni*

## Symptoms:

Sushrut - Dysparunia, Other pain, ache etc

Charak -

### Local Symptoms:

- *Shoth* (inflammation), *Sparsh asahatva* (Tenderness) ,

Menses - Painful

- *nil* (bluish), *peet* (Yellowish) color

### Other symptoms:

- Pain at *Shroni* (Pelvic), *Vankshan* (groin), *Prushth* (lumbosacral region)

- *Jwar* (Fever)

- diarrhoea, anorexia, heaviness in lower abdomen & bladder  
(*Vagbhat*)

# Correlate with

- ◉ Different stages of gonococcal infection
- ◉ Charatk - Acute inflammatory stage
- ◉ Sushrut - late stage / chronic stage
- ◉ Madhavnidan - Vaginismus (psychological abnormality present in any chronic disease or chronic dysparunia)
